

# MEETING XVIII

DEMO WEEK

W5 D2

# DEMOING

- Demos are the hackers' chance to show off what they have been building in the past few weeks.
- Very important part of the Programming World.
- It's what will display the best of your app.
- Super important for Hackathons.

# PRESENTATION

- Start off with something you failed at. Why is it important in your app.
- Demonstrate your app!
- Something you have learned.
- Get your prize.

# FEEDBACK

- Feedback helps hackers better present. The more the better.
- Give tips and your thoughts on the app.
- Something they could improve on
- What feedback would you like to be given if you had presented this project.

# THE CODE

- <http://bit.ly/SAM-TWILIO-2>
- Code is commented and documented.
